Topics of interest to Club members:

1) Auto transport can be fraught with uncertainties re: which company to choose, how to insure that your car arrives @ its destination with as little damage as possible, & other issues you never imagined could be issues. This link has some good advice from an experienced transporter, courtesy of Matrix Integrated.

2) Fuel economy suggestions for the enthusiast. Also from Matrix Integrated.

3) The Bremerton Spring Getaway Track Event was a great success. Attendance was excellent & the weather cooperated. Special thanks for superb efforts by Jeff Odland, Event Master & Wendy Apperson, Track Steward.
